Bug report: Job Application Form

Assignment part - 1

Mohamed Nisthar Mohamed Haflan

Bug report 01 – Removing all Selected Subjects Causes a White Screen

- ❖ Description: - When the user types the subject name select subject and then removes it by clicking the **Remove** button, the entire screen turns white. This issue occurs in two scenarios:
    1. When a user types the subject name and selects a subject from dropdown and removes it, causing the screen to turn white.
    2. When a user types the subject name and selects multiple subjects (e.g., three) from dropdown and removes them one by one, the screen turns white after the last subject is removed.
- ❖ Steps to Reproduce:
    - Visit the job portal
    - Type a subject name and select a subject from the dropdown and click the **Remove** button.
    - Observe that the screen turns white.
    - Alternatively, select three subjects and remove them one by one.
    - After removing the last subject, observe that the screen turns white.
- ❖ Expected Result:
    - The selected subject should be removed, and the page should remain functional without affecting the visibility
- ❖ Actual Result:
    - After removing a subject, the screen turns white, causing all elements to disappear.
- ❖ **Severity: High**
- ❖ **Priority: High**

Bug report 02– Selected City Value Not Resetting on State Change

- ❖ Description: - When the user selects a state and chooses a city in that state, then changes the state, the city dropdown updates with new cities. However, the city selection remains the same, which may cause a mismatch between the selected state and city.
- ❖ Steps to Reproduce**:**
    - Visit the Job portal

- Select a state (e.g.: Uttar Pradesh)
- Choose a city in that state (e.g.: Agra)
- Change the state to another state (e.g.: Haryana)
- Notice that the city dropdown updates with cities from the new state (e.g.: Kamal, Panipat)
- However, the city you selected earlier (e.g., Agra) is still shown, even though it doesn't belong to the newly selected state.

❖ Expected Results:-
- When the user changes the state, the city dropdown should reset, and no city should be pre-selected. The user should have to choose a city from the updated list of cities for the new state.

❖ Actual Result:-
- The city selection does not reset and remains the same, even after the state has changed.

❖ **Severity**: **medium**
❖ **Priority**: **High**

Bug report 03– Remove the selected date from the calendar causes the white screen

❖ Description: - When user remove the selected date / clear the field causes entire screen to turn white/ hide all the elements.
❖ Steps to Reproduce:
- Visit the job portal
- Navigate to date of birth field (current date is selected by default)
- Select a date
- Click on the element and remove the selected value

❖ Expected Result: -
- Date field value set to default date

❖ Actual Result
- As soon user clear the field all the elements hides/ entire web page goes white.

❖ **Severity: High**
❖ **Priority: High**

Bug report 04– First and Last Name Fields Accept Non-Alphabetic Characters

❖ Description:-
  - The "First Name" and "Last Name" fields allow non-alphabetic characters (such as numbers, special characters, etc.), but they should only accept alphabetic characters.

❖ Steps to produce:-
  - Visit the Job portal
  - Leave the "First Name" and "Last Name" fields empty.
  - Click on the "Submit" button without filling in any values.(This step will change the border color to RED of both first name and last name fields)
  - Enter a non-alphabetic character (e.g., a number or special character) in either the "First Name" or "Last Name" field. (Changes the border color to green which indicate valid input)

❖ Expected Results:-
  - The "First Name" and "Last Name" fields should only accept alphabetic characters (A-Z, a-z). Non-alphabetic characters should not be accepted, and border color should stay RED.

❖ Actual Results:-
  - The field accepts non-alphabetic characters in the "First Name" and "Last Name" fields changes the border color to green.
  - The form accepts non-alphabetic characters in the "First Name" and "Last Name" fields and allow submitting the form.

❖ **Severity**: **Medium**

❖ **Priority: High**
